

Vieles außer gewöhnlich.

How can we support you?

„We don't have suppliers, we have partners“

This is what our customers appreciate: we are real partners for them. And because partners support each other in good and in bad times, we are, despite the current situation, looking forward together with our customers.

Availability

You will reach our order processing team from 07:00am to 05:00pm. Also, we are in frequent contact with our strategic partners such as suppliers for blanks, coating and machines. Especially at the moment we see how important it is to have reliable partners.

Thinking ahead

We all need safe and smooth processes, especially when production starts to increase again. A lack of material or tools would cause fatal manufacture interruptions. Therefore we want to support you as a partner with cutting tools and regrind service.

Let us know, what we can do for you.

You can contact us by phone: +49 6255 9595-0
and via E-Mail: info@kopp-schleiftechnik.de

Stay healthy!
